Bruce: I think this document reads well.

Most all of my comments are focused on ensuring consistency and eliminating redundancy so, in this sense, these are not substantive. However, these should be addressed before this is routed through management and sent to the

Ex. 5 Deliberative Process (DP)

I created and edited the attached clean version as editing the previous marked up version was very slow.

Thanks to you, Lucita, and Kimi for getting us to this point in the process,
